

## Year 5 Home Learning

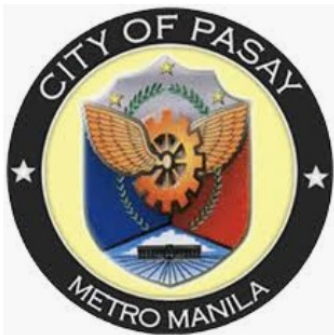

This week the written piece of work is to create a logo for the cities we are building in Conceptual Learning. There are also three Maths activities to be completed on Education City that will recap our learning on Prime Numbers, Factors and Multiples

**Due Date: Thursday 5/12/19**

### **Conceptual Learning:**

**WALT:** develop and create an appropriate logo

This week, as a class, we have been building a city. Your home learning is to create a logo that would represent your city—think of the elements you have used to make your city unique such as sustainability, innovation and meeting the needs of the people that live there. Here are some examples:

The logo must be easily recognisable and not difficult to reproduce, as the top design will be used to represent our city. You can create it digitally or on paper (not in books).
