

Year 5 Home Learning

This week we will be completing a Science task that will be accessed via Google Classroom. There will also be tasks on Mangahigh to be completed online (no need to hand anything in).

Due Date: Thursday 21/11/19

Science Presentation :

WALT: describe the reproductive process of plants

This week you will need to complete a science task explaining the reproductive process of plants. You will need to log onto Google Classroom to complete the task.

This could include:

- Labeling the part of a flower
- Explaining the life cycle of a plant (can use a diagram)
- Three different types seed dispersal

Your task can be presented in the following ways:

- A poster
- Google Slides/Docs (submit via Google Classroom)
- A Video (YouTube style)
- Or any other innovative way you can think of!

Some websites you can access for information:
